nutrition in the prevention pdf -  
Objective: To review the  
evidence on the diet and nutrition  
causes of obesity and to  
recommend strategies to reduce  
obesity prevalence. Design:  
The evidence for potential aetiological  
factors and strategies to reduce obesity  
prevalence was reviewed, and recommendations  
for public health actions, population  
nutrition goals and further research  
were made. Mon, 21 May 2018
